EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank Eymard on September 21, 2006.

The application has been amended as follows:

In claim 7, line 2, "100" has been changed to -- 1000 --.

Claim 16 has been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or suggest a method of making catalyst particles of a size of 20 to less than 1000 μ m by agitating at least two dry components, spraying a liquid binding agent, and drying the catalyst inside the agitation container.

The amendment to claim 7 was made to correct a minor typographical error. See page 4, lines 1-2.

Claim 16 was made to avoid a rejection under 35 U.S.C. § 112, first paragraph, as lacking adequate written description. The examiner was unable to locate a portion of the specification that supports the claim. (In contrast, the amendment to claim 1 indicating that the drying occurs

in the agitator container is supported by the specification in the examples where drying occurs in the flotation device by altering the feed temperature.)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
